

Old Warsaw Gas Pole-Top Luminaire

The pole-top Old Warsaw gas lamp is a faithful reconstruction of the original luminaire down to the smallest technical and artistic detail. It provides excellent illumination with brilliant color rendering. The golden-yellow lighting makes the surroundings appear natural and lively. The luminaire is very easy to maintain due to a hinged roof and a side door.

Its rotationally symmetrical light distribution makes the Old Warsaw lamp ideal for illuminating squares, streets, residential areas, green spaces, and driveways.

New light for the Warsaw Parliament building
