# NewNight PIN-BOARD S

**PIN BOARD luminaires are available in 4S, 3S, 2S, or 1S and flexible in its application**
Elegant and very flexible PIN BOARD lights are the new products in the area of pole-mounted luminaires. They are available with four, three, two, or one 3LENS PIN module LS12. The number of PIN modules determines the light output, the larger number of modules increases possibilities for optics and light distribution.

Whether the largest, 4S, or the smallest, 1S – the PIN Board convinces with its low dead weight, low wind load, and offers the typical advantages of many BRAUN products. All system components are easily exchangeable and replaceable with newer LED technology according to the FuturePROOF principle.

Areas of application for these luminaires are just as versatile making PIN Board series ideal for street lighting, car parks, residential and district lighting, and much more. Luminaires from the PIN Board series are supplied ready for connection and are immediately ready for operation on existing mast systems.
