

NewNight 640 BeeLED

The 640 BeeLED from the NewNight® series is an elegant, cylindrical LED luminaire for streets, paths, squares, promenades, parks, gardens, etc.

Suitable for pole heights of up to 6 m, it impresses with its outstanding performance. The BeeLED is completely or partially dimmable due to the sub-segments thereof with asymmetrical light distributions.

With the targeted light distribution of the reflector system, direct the light onto certain sections of sidewalks and/or roadways, thus avoiding stray light.
