

NewNight DKstreet LED

The DKstreet LED luminaire: Compact and flexible in its application

This compact LED luminaire can be used via suitable adapters as mast attachment or mast-top luminaire in areas of the street, residential, or district lighting.

Various light distributions can be selected for the DKstreet LED in an attractive aluminum housing. It is supplied ready for connection, easy to install, and is characterized by weather resistance and longevity.

Resistant to impact, UV, and weather. Insensitive to vibrations.
