

17.01.2020 | BRAUN Lighting at the Green Week in Berlin

Starting on the 17th of January the International Green Week (IGW) will take place for the 85th time in the convention center of Berlin. For the first time BRAUN Lighting Solutions will take part as an exhibitor.

At the IGW international businesses of agriculture, food and horticulture present themselves each year with new innovations. As a global player in the sector of illumination, we as BRAUN Lighting Solutions are represented with our product [GreenGlow](#).

[GreenGlow](#) is an innovative LED plant light, unrivalled in its sector. We will gladly provide further information concerning our highly individual lighting solutions and installation, as well as our other services.

Make an [appointment](#) now to meet us at the IGW for a consultation. You will find us in hall 10.1 at booth 128.

We are looking forward to your visit!
