25 years BRAUN Lighting Solutions

Light for people. Since 2001.

For 25 years, BRAUN Lighting Solutions e.K. has stood for innovative, durable, and sustainable lighting solutions “Made in Germany.” What began as a vision in 2001 is now an established partner for municipalities, industry, planning offices, and demanding lighting projects at home and abroad.

25 years of development, quality, and responsibility

Lighting technology has changed fundamentally over the past 25 years. BRAUN has actively followed this path – from conventional luminaires to modular, future-proof LED systems. In-house development, in-house production, and short decision-making processes enable solutions that are technically impressive and durable in the long term.

Our products are created with a focus on:

- Durability and ease of maintenance
- Energy efficiency and sustainability
- Modular design based on the future-proof principle
- Manufacturing expertise “Made in Germany”
- Projects that last

Whether historic old towns, modern streetscapes, industrial facilities, or airports – BRAUN implements lighting solutions that blend into their surroundings in terms of both function and design. Numerous projects throughout Germany are symbolic of 25 years of experience, precision, and reliability.

Thank you for 25 years of trust

On our 25th anniversary, we would like to say thank you:
Thank you to our customers and partners for their trust.
Thank you to our team for their commitment and expertise.

With this foundation, we look ahead to the next 25 years of innovative, sustainable, and responsible lighting solutions.

BRAUN Lighting Solutions e.K. – your partner for lighting with substance for 25 years.
