Ulm, den 21.04.2026

visocert GmbH
Am Hochsträß 55, 89081 Ulm

certified by VISOCERT

Die VISOCERT GmbH übernimmt bei der Ausstellung dieses Zertifikates keine Haftung gegenüber anderen Parteien als dem Kunden und nur in Übereinstimmung mit der Zertifizierungsvereinbarung.
Die Organisation verpflichtet sich, ihre Systemzertifizierung gemäß den Anforderungen von VISOCERT einzuhalten, um die Gültigkeit dieses Zertifikates aufrecht zu erhalten.
Die Gültigkeit kann per Mail unter zertifikat@visocert.de oder durch das Scannen des Codes abgefragt werden. Das Zertifikat bleibt Eigentum der VISOCERT GmbH, an die es auf Anforderung zurückgesandt werden muss.

Quality is not a promise—it is a verified standard.

The certification body VISOCERT GmbH confirms that BRAUN Lighting Solutions e.K. has implemented and successfully applies a quality management system in accordance with ISO 9001:2015. This underscores our commitment to executing lighting projects reliably, efficiently, and to the highest quality standards.

Certified for:

- Planning
- Production
- Delivery
- Installation
- Maintenance of lighting systems

Why is ISO 9001 important?

Quality with a System

ISO 9001 is the world's best-known standard for quality management. It ensures that processes are documented, monitored, and continuously improved.

For our customers, this means:

✓ Clear and transparent processes

✓ High product and service quality

✓ On-time project execution

✓ Continuous improvement of our services

✓ Transparency and reliability in every project

What does this mean for our customers?
Greater peace of mind for your project

Whether it's historic street lighting, modern LED systems,

industrial lighting, or solar lighting systems—our customers benefit from standardized quality processes throughout the entire value chain.

From initial planning through manufacturing to installation and maintenance, we work according to defined quality standards.

This provides peace of mind for:

- public tenders
- municipal infrastructure projects
- industrial and commercial projects
- airport and transportation projects
- Renovation of Historic Lighting Systems

Quality from Berlin – for over 25 years

For more than two decades, BRAUN Lighting Solutions has been developing and manufacturing innovative lighting systems for indoor and outdoor use. From LED retrofits of historic fixtures to complex industrial and infrastructure projects, quality, sustainability, and durability are at the heart of everything we do.

Our quality is evident not only in our certified processes but also in numerous successfully completed projects for municipalities, industry, and infrastructure. Through consistent investment in research, development, and in-house manufacturing, we actively drive innovation and shape the lighting solutions of the future.

ISO 9001:2015 certification now officially confirms what our customers have valued for many years: structured processes, high manufacturing quality, and reliable project execution.

Are you planning a lighting project?

Benefit from over 25 years of experience, in-house manufacturing in Germany, and certified quality processes.
