TECHNICAL DATA

System power	8 - 50 watts
Expected life	>60.000 Hrs.
Color temperature	4100K*
Luminous flux	2620 lm (26 watts)
Color rendering	CRI > 85
IP protection class	IP 65
LED cover PC	transparent or satined
Application area.....	-40°C bis +55°C
Protection class	I oder II

*Color temperature freely selectable

Practical example: LED CONE installation kit with MaxiDimm 3000 asymmetrical light distribution using individual control of the LED segments, for example to darken house fronts on side streets

Retrofit examples: BRAUN NewNight® CONE installation kit in various luminaires and drop lights
Easy to fit with compact dimensions!

Braun Lighting Solutions e. K. is a participant in the export initiative "Energie Effizienz – made in Germany", initiated by the Federal Ministry for the Economy and Technology. Due to the complexity of the many possible combinations of drivers and LED modules, the values shown for technical LED parameters, including performance parameters, are typical. Actual values of specific products in specific configurations may vary from these typical values. The information and diagrams contained in this document do not constitute an offer or contractual obligation. Product parameters may change as a result of technical innovation and will be undertaken without prior notice. Our manufacturing conforms to DIN EN and VDE regulations; the product conforms to European EMC regulations.
